The final breaths of the Islamic Republic of Iran.

The Islamic Republic must fall.

Hamburg , 19.07.2023, 13:39 Time

USPA NEWS - "Ayatollah Khamenei, the Islamic Republic, and the IRGC have no way but to fall. There are several reasons that have led their government to this point.

The first reason: Financial and moral corruption of the leaders of the Islamic Republic.

The second reason: Severe and horrifying suppressions, which have resulted in the innocent killings of many youths over the past 44 years. The Iranian people, who are great, patient, and respectful, no longer tolerate such suppressions.

The third reason: The government and Khamenei have no understanding or empathy for the demands of their people and bear no resemblance to the people in any way.

The fourth reason: The government of Ali Khamenei is under tremendous pressure in terms of the economy and foreign relations. Not only have important countries like the United States and Europe imposed sanctions on them, but nowadays, the people inside Iran also boycott most of the domestic government-owned companies, and civil disobedience in Iran is on the rise.

And There Are Many More Reasons To Im Going To Write For You Some of them in below

The People Of Iran Are Tired From Wearing Force Hijab by Forcing Their Daughter Their Wife's Their Mothers to wear Hijab And You Must To Go To Heaven In the Afterlife.

People are well aware of how much better they could have lived if this corrupt government didn't exist, because Iran is a very wealthy country, and there are many other reasons. Nowadays, the Khamenei government is acting insanely, just like failed regimes. They are desperately trying to force the pure, powerful, and brave women of Iran to wear compulsory hijab. They frighten women and girls with unmarked cars and brutal police to detain and issue absurd sentences for those who don't wear the hijab. For example, one of these sentences is that any girl or woman without hijab must wash corpses for two months!!! Also, they must visit a psychologist for 5 years and are banned from leaving the country for 5 years

Despite all these insane orders, the failed Khamenei government has faced a strong public response. Brave Iranian girls continuously and in large numbers walk past these police patrols without hijab, united and unyielding.

The government can do nothing but Khamenei himself can't Believe His own failure

The people of Iran have realized that this government cannot be reformed or improved. Iranians strongly demand the downfall of the regime, and this fear has intensified for the Khamenei government. You can clearly see how even the smallest support from other countries for the people of Iran is met with strange reactions from the Iranian Islamic government, which itself is a sign of the failure of this Islamic government.

They imprison actors and famous individuals without any wrongdoing. For example, you can search for the name of Mohammad Sadeghi, a young actor, and see how he was targeted simply for criticizing why the police continue to arrest girls without hijab. The brutal Iranian government attacked his home and took him to prison, and these scenes are recorded in Iran's history.

These reasons, the violence, and the increased pressure from the Islamic government have led the people to have only one demand: a revolution and a complete downfall of the religious government in favor of another government similar to that of 2023. Undoubtedly, this will happen soon, and we will witness prosperity, freedom, and friendship of the Iranian people with other countries. A free Iran without Ayatollahs is beneficial for the whole world.
